Why don't you take the papers?
They're the light of my delight; Except about election time, And then I read for spite.

Subscribe! you cannot lose a cent; Why should you be afraid? For each thus paid is money lent At interest four-fould paid.

Go then and take the papers, And pay to-day, nor pay delay, And my word for it is inferred, You'll live until you're gray.

An old neighbor of mine While dying of a cough, Desired to hear the latest news While he was going off.

I took the paper and I read Of some new pills in force; He bought a box—and is he deal? earty as a horse

I knew two men, as much alike As e'er you saw two stumps; And no phrenologist could find A difference in their bumps.

One takes the papers, and his life Is happier than a king's; His children all can read and write, And talk of men and things.

The other took no paper, and, A tree fell down and broke his crown And killed him-"very good."

Had he been reading of the news, At home like neighbor Jim, I'll bet a cent that accident

Why don't you take the papers? Nor from the printer sneak, Because you borrow from his boy A paper every week.

For he who takes the paper, And pays his bills when due. And with the printer too

## THE INN AT THE GAP.

I was just starting out in the world and was twenty-two years old. I had graduated the previous year, and had just been trying to get an appointment as an army surgeon; but, failing in this went westward, to find a place in which to commence and make my reputation. Savannah was my native place, and from there I started to find my way into Kentucky. I should have gone out earlier in the season, but I did not get off on my expedition until the last of November. In those days there were not even regular lines of stages over many traveled routes; but parties would join together and get somebody who had a covered wagon to carry them through from point to point, and divide the expense. It was so on the especial time
